I am a self-motivated Computer Programmer graduate with proven and tested computer systems and programming skills. While working in the field for six months now, I feel that this is the career path I want to go down. The combination of collaborating with multiple departments of different skill sets and never-ending learning is something that really appeals to me.

EXPERIENCE

MAY 2022 – CURRENT

IT SECURITY ANALYST, FERROTECHNICS INC.

Responsible for conducting vulnerability assessments, risk assessments, and penetration tests. This is done by using a variety of testing tools while collaborating with our clients to ensure the job is done right.

APRIL 2021 – SEPTEMBER 2021

TRAFFIC CONTROL SUPERVISOR, TCI FIELD SERVICES

I was responsible for mitigating traffic on construction sights and ensuring a safe working environment for the company.

EDUCATION

APRIL 2022

DIPLOMA IN COMPUTER PROGRAMMING, DURHAM COLLEGE

- Cumulative G.P.A of 4.67 out of 5.0 (equivalent to A+) with Honour Roll standing for 4 consecutive semesters
- Studied computer systems, multiple programming languages, cyber security, systems development, testing and automation, and Linux systems

SKILLS

- I know my way around computer systems such as Windows, Linux, MacOS, and mobile OS
- Experience with vulnerability assessment and Pen Test software
- Experience with automation frameworks such as Selenium and Postman.
- Experience in many programming languages and database systems
- Strong communication skills
- Able to display information in a clear and concise manner.
